Microsoft Solutions Partner

The Multi-Company Accounting Solution for Microsoft Dynamics 365™ Finance & Supply Chain Management

Automation & Productivity for All Industries

The Advanced Multi-Company Solution (AMCS) for Microsoft Dynamics 365 Finance & SCM (Dynamics 365 F&SCM) delivers immediate productivity boosts for your accounting team and supports business transformation. Close your books faster with AMCS, and reduce manual accounting team data manipulation, workload, and clicks by up to 90%. Get predictable approval workflows connecting your business users with your accounting and finance teams. AMCS delivers scalable technology to optimize and streamline intelligent workloads for your organization's key personnel across Accounting, IT, and FP&A teams.

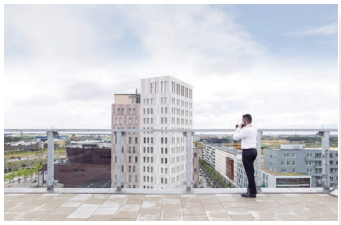

RAPID IMPLEMENTATION + IMMEDIATE IMPACT

AMCS is natively built on Dynamics 365 F&SCM and easy to install. You can implement and take AMCS live in 10 business days or less. The standard project steps are:

- **Technical Setup:** 1-2 Days
- **Configuration:** 2-4 Days
- **SME Training:** 1-2 Days

This quick implementation timeline minimizes the time commitments required from subject matter experts and provides rapid capability improvements for all Accounting, Finance, and IT users.

Examples of industry specific use cases include:

Property Management

Navigating the rising cost of manual accounting tasks, high volume repetitive tasks across many legal entities, AMCS provides instant productivity gains for Property Management teams. With a seamless integration tool connect your ecosystem of Field Service, Repairs, Rental management etc. and automate the flow of accounting data inputs. Accounting teams get an end-2-end productivity tool for managing large scale accounting tasks across legal entities.

Retail & Frianchise Mangt.

Retail and franchise businesses face the challenges of multiple POS systems and numerous legal entities, often leading to fragmented, error-prone accounting workflows. AMCS introduces robust automation and integrations, enabling efficient oversight of 50 to 500+ entities, thus enhancing operational accuracy and streamlining processes.

Financial Shared Services

AMCS leverages Power Automate to provide scalable, role-based, pre-defined approval workflows. This automation is essential for timely financial closings across diverse countries, regions and entities, streamlining operations, and empowering career advancement by facilitating operational consolidation and leadership opportunities.

Mergers & Acquisitions

AMCS ensures the rapid establishment of new legal entities and fast, reliable data migration for businesses pursuing rapid growth through mergers and acquisitions. This framework accelerates integration into Microsoft Dynamics, boosting accounting productivity, minimizing integration risks, and optimizing the realization of strategic benefits.

Microsoft Dynamics 365 Finance

Overview of AMCS Workspaces for Accounting Team Productivity

SUPER JOURNAL TRANSACTIONS:

AMCS enables automated processing across hundreds of legal entities, significantly reducing manual workload and enhancing transaction accuracy. AMCS's Super Journal handles a wide range of journal types, including General, Fixed Assets, AP Invoices, Intercompany, and more.

MULTI-ENTITY INQUIRIES & REPORTING:

AMCS centralizes financial reporting, offering immediate access to essential reports such as voucher transactions and trial balances across all entities or any subset of entities. This integration provides CFOs and Controllers with actionable insights for strategic financial management.

ADVANCED BUDGET MANAGEMENT:

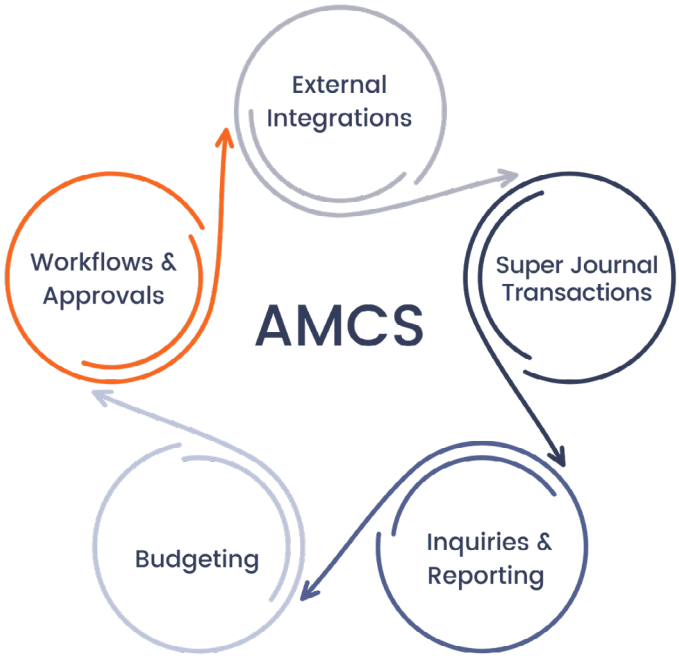

Efficiently manage budgets across various entities using AMCS, facilitating rapid adjustments and reallocations, enabling agile financial responses to operational demands.

AUTOMATION OF WORKFLOWS & APPROVALS:

Improve and speed up Dynamics 365 F&SCM approvals for accounting and business users. Streamline workflows across all entities using Microsoft Teams and Outlook. Greatly reduce manual follow-ups, cut licensing costs, and let users make approvals where they work.

SEAMLESS EXTERNAL INTEGRATIONS:

Easily integrate external systems like payroll and POS with AMCS's API and Data Bridge. Automate data flows to maintain accuracy and uniformity across financial records, simplifying external data management.

FOR IMPLEMENTING CUSTOMERS

Accelerate Your Critical Implementation Activities with AMCS

ANALYSIS PHASE: KICKSTART SETUP

Activities: Initiate planning for data migration; identify and map source data.

Key AMCS Features: Super Journal, Rapid Legal Entity Creation.

Impact: Ensures precise data transfer and quick initial setup for entity management.

DESIGN: STREAMLINED CONFIGURATION

Activities: Configure legal entities centrally; test data migrations; design global allocations and budgeting.

Key AMCS Features: Rapid Legal Entity Creation, API/Data Bridge, Integrations, Budgeting.

Impact: Prepares systems for integration and financial management, aligning with global operational standards.

DEVELOP: ROBUST INTEGRATIONS

Activities: Develop file-based integrations with external systems like payroll and POS.

Key AMCS Features: API/Data Bridge, Integrations, Budgeting.

Impact: Extends automation and enhances financial operation efficiencies.

TEST PHASE: COMPREHENSIVE VALIDATION

Activities: Conduct UAT with Dynamics migration mappings; test integrations, allocations, and transactions.

Key AMCS Features: Super Journal, Integrations, Budgeting, Reporting, Workflows + Approvals.

Impact: Confirms system integrity and readiness, reducing deployment risks.

DEPLOY PHASE: CENTRALIZED CONTROL

Activities: Automate and manage global financial transactions from a central location.

Key AMCS Features: Super Journal, Integrations, Budgeting, Reporting, Workflows + Approvals.

Impact: Increases control and operational efficiency, enabling scalable growth.

AMCS & IMPLEMENTATION PHASE ACCELERATORS

DYNAMIC DATA MIGRATION

Accelerate data migration with over 50 dynamic data mapping templates, allowing SMEs to work within familiar formats. This feature streamlines the migration process, ensuring data consistency and reducing setup times during system upgrades.

RAPID LEGAL ENTITY CREATION

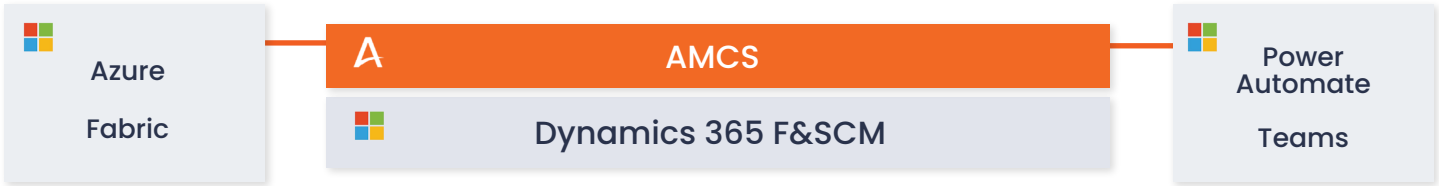

Quickly scale by creating new legal entities with AMCS's customizable templates. This feature minimizes the traditional complexities and time required to configure new entities, enabling rapid organizational expansion.
